MEMORANDUM FOR: Chief, [REDACTED] 25X1

VIA: Deputy Director for Administration

FROM: John M. Ray
Director of LogisticsSUBJECT: HPSCI Logistical Report - [REDACTED] 25X1
[REDACTED] 25X1REFERENCE: Memo for D/L fm [REDACTED] dtd 18 Apr 87,
Same Subject 25X1

1. Your laudatory comments concerning the support provided by the three individuals in preparing the Logistics Plan for the [REDACTED] Project as cited in the reference are certainly appreciated. The effectiveness of the plan is further reinforced by the comments of the HPSCI which expressed its satisfaction in our efforts to monitor and control the expenditures for materiel. You should be aware that considerable effort and time was expended in this effort by some 30 Office of Logistics personnel beyond the three specifically cited in the reference. 25X1

2. With respect to HPSCI's comments concerning the lack of controls for a small percentage of disbursements which are not under the control of CIA officers, I believe that this is a financial problem that can best be resolved by personnel on the scene. Under these circumstances, we plan to make no changes to the existing Logistical Plan.
